## **ASSISTANCE FOR INDIVIDUALS LIVING WITH CHRONIC KIDNEY DISEASE (CKD)**

Individuals are eligible for general or dental assistance funds based on a diagnosis of kidney disease, treatment protocols of dialysis or movement towards transplant, and low-income status.

### **GENERAL ASSISTANCE FUNDS**

Mount Baker Foundation can provide temporary support for costs of housing, utilities, insurance premiums or prescriptions.

### **DENTAL ASSISTANCE**

Mount Baker Foundation can pay for eligible individuals, including work necessary to get a clean bill of oral health for transplant!

### **POST-TRANSPLANT OUT OF POCKET EXPENSES**

While Medicare / Medicaid and most insurance plans cover transplantation, there can be non-covered costs for temporary housing near the transplant center after transplant, and other similar costs.

### **SCHOLARSHIPS**

Chronic Kidney Disease can change the course of one's life. Often, new career paths must be chosen that suit the needs of the individual at different stages of the journey. Mount Baker Foundation offers scholarship support for individuals who qualify.

Mount Baker Foundation also offers scholarships for those serving individuals with Chronic Kidney Disease and want to upgrade their skills and education, or who are just starting out on a caregiving career committed to those with Chronic Kidney Disease.

**A legacy of caring for our community**

# OUR ROOTS

Mount Baker Foundation was created through the disbursement of funds from Mount Baker Kidney Center, a 5-Star outpatient dialysis center which served Whatcom County for nearly 40 years.

# OUR MISSION

To identify & fund catalytic, transformative initiatives that result in sustainable change.

# OUR AREAS OF FOCUS

Supporting individuals, families, neighborhoods and communities becoming stronger, healthier, more resilient and more compassionate, generation after generation.

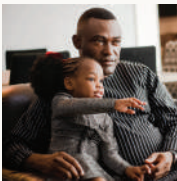

## MBKC Legacy Committee

Focuses on improving the quality of life for individuals with Chronic Kidney Disease.

## Children & Families Committee

Spans pre-maternity education through birth, childhood development, early learning and the empowerment of parents.

## Equity & Health Determinants Committee

Addresses issues of poverty, homelessness and lack of education, focusing on diverse communities and neighborhoods.

# A CATALYST FOR COMMUNITY AND GENERATIONAL TRANSFORMATION.

Catalyst. Generational. Transformation. We know these are big words. But we are willing to work towards them, learning day by day, month by month, and engaging with the heart of the communities throughout Whatcom County and with expert resources here in our community, across the state, nation and the world.

We actively seek experts in these areas, whether locally, across the state or nation. And we want to learn from what other communities are doing – even on a global basis. Please visit [mtbakerfoundation.org/contact](https://mtbakerfoundation.org/contact)
